This regret, I am well septred, will be shared by a large majority of our fellow citizens who bear testimony to the able and impartial monner in in which you have discharged the duties of your high trust.

WHAT IS SAID ABOUT THE RESIGNATION AND SUC

There is a very general expression of regret at the prespect of losing Judge Haymond among the State officials and members of the bar who practice in the Supreme is Court of Appeala. The reason which led to the step is said to be that the salary, \$2.200 per annum, is far from commensurate with the labor of a Judge, and that much less art dones work as a practicing attorney would command a occisiderably better income. Some of Judge Haymond's frends have spoken of limin connection with the svecesorship to Step Henry G, Davis as United States Senator, but whether he would consent to the use of his mane as a candidate is regarded as doubtful.

A movement is on foot among the bar of

Barr, as a candidate for the position vacated
by Judge Haymond. A petition is being
sent around for signatures, requesting the
Governor to appoint Mr. Barr. It was very
generally signed by those to whom it was presented yesterday.

A move is also on foot among the friends
of ex-Attorney General White to present his
name to the Governor with formidable backing. A petition in the interests of this planwas circulated last evening.
